Copernicus, Savonarola, and Calvin.

First recorded in the fourth century, the Sayings of the Early Christian Monks—consisting of spiritual advice, anecdotes, parables, and reflections on life— influenced the rule of St. Benedict, set the pattern for Western monasticism, and have inspired centuries of poetry, opera, and art.

From the introduction: "The first book of monastic wisdom to be written, the Sayings of the Early Christian Monks has served as a guide to daily living for nearly 1700 years. It continues to be a source of inspiration and wisdom for Matters of Faith and daily life for people of all faiths and none."

One of the foremost scholars of Hinduism in the world shows how Hinduism’s idiosyncratic qualities—the fluidity of its texts and central tenets among various groups—have kept Hinduism alive in ways not fully explored. “Doniger’s enthralling and encyclopedic book reveals her vision of a Hindu culture that is plural, generous, and inclusive....This is a rich text that will encourage dialogue and conversation among a wide range of scholars.”—Homi K. Bhabha, Harvard University.
