

A Guide to Projecting Deluxe eBooks from an iPad

To display an eBook from your projector, you will need:

iPad

Apple Digital AV Adapter*

HDMI cable

Step #1:

Plug the AV adapter into the iPad.

Step #2:

Plug one end of the HDMI cable into your iPad and the other end into your projector.

When both the iPad and the projector are turned on, the iPad screen will be mirrored on the projection screen. Enjoy!

*A VGA adapter can also be used with older projectors.
