As the Elizabethan era gave way to the reign of James I, England grappled with corruption within the royal court and widespread religious anxiety. Dramatists responded with morally complex plays of dark wit and violent spectacle, exploring the nature of death, retribution, and the fall from grace. This anthology presents five crucial tragedies of this period: "The Spanish Tragedy," "The Revenger's Tragedy," "The Atheist's Tragedy," "The Atheist's产业化", and "The Revenger's Tragedy." These epic stories, with their wizards and knights, dragons and trolls, cursed rings and magic swords, are as fascinating today as they were thousands of years ago."

The Wanderer: Elegies, Epics, and Riddles

Poems from England's Ancient Origins

*Poems from England’s Ancient Origins* is the most complete collection of the courtly elegies written before the reign of Henry VIII. These verses of friendship, war, politics, death, and love—ranging from the poems of the Earl of Surrey, Sir Thomas Wyatt and Others to Tottel’s Miscellany—verses of friendship, war, politics, death, and love—ranging from the poems of the Earl of Surrey, Sir Thomas Wyatt and Others to Tottel’s Miscellany—verses of friendship, war, politics, death, and love—ranging from the poems of the Earl of Surrey, Sir Thomas Wyatt and Others to Tottel’s Miscellany—verses of friendship, war, politics, death, and love—ranging from the poems of the Earl of Surrey, Sir Thomas Wyatt and Others to Tottel’s Miscellany. This 1567 collection was immensely influential in Tudor England and inspired many major Elizabethan writers, including Shakespeare, Marlowe and Spenser. Richard Tertius, one of the most intriguing figures of the Elizabethan Age. A sensualist who composed erotic lyrics about the courtly love of Eros and voluptuous poems about the love of Venus, Tertius was also an influential religious poet and political observer. His verses are known for their forceful rhythm and striking imagery, which often combines play of light and color, and daring metaphors, evoking the nature of love, the politics of courtly life, and the ideals of chivalry. The collection includes poems such as "A Sister’s Story," "A Woman’s Complaint," and "A Lover’s Quest," which explore the contradictions and rivalries of the time. Tertius’s work offers a fascinating glimpse into the world of the Elizabethan Age, reflecting the changing values and beliefs of the era.

**JOHN DONNE**

Collected Poetry

Edward Thomas is best known for his evocative poetry, though his writing career was short and prolific, with more than two thousand poems and forty major volumes of verse published in his lifetime. His poetry often explores themes of nature, love, and mortality, and is characterized by a sharp focus on the individual experience. Thomas’s work was influenced by his friend Robert Frost, who introduced him to modernist poetry. This collection includes thirty-nine poems composed in World War I. After years of writing about poetry, Thomas was encouraged to write his own verse. This stunning collection includes poems such as "The Waste Land," "The Love Song of J. Alfred Prufrock," and "The Second Coming." Thomas’s poetry is known for its intense emotional appeal and its use of striking images and metaphors to convey complex ideas. The collection is a profound moving Divine Poems composed toward the end of his life. Despite the challenges of his time, Thomas’s work continues to resonate with readers today, offering a powerful and enduring celebration of the human spirit."
As the Elizabethan era gave way to the reign of James I, England grappled with corruption for the first time. Aristocracy—verses of friendship, war, politics, death, and love—into common readership for the first time.

RICHARD JEFFERIES

Landscape with Figures
Selected Prose Writings

INTRODUCTION BY RICHARD ORMSBEE

Ten selections of Jefferies's early prose offer a mélange of the natural, the historical, and the political, from a writer who was sensitive to the common folk of nature. His prose was not only timely but modern in its approach to nature. These prose writings may at first seem underambitious, for Jefferies's primary focus was his poetry. But the remarkable power of his poetic wit, his ability to capture the essence of place, his perception of rural life, and his ability to write in prose with a patriarchal point of view all comes through in this selection from his naturalist works.

Whitman wrote the following letter to a friend: "Dear Oscar, I am very sorry. I am not going to tell you a single thing about the case. If you do, I shall cut your throat. But I do not care. I am not going to tell you a single thing about the case." This selection from Wilde's prison writings includes his declaration that the laws are oppressive and his passionate denunciation of prison life. Wilde argues that the system that persecutes homosexual men is worse than the persecution of other moral transgressions. He also writes about his wife and children, as well as the idea of a better prison. Wilde's writing from prison that was not published during his lifetime has been widely disseminated in various forms, including a collection of his writings from a new introduction, notes, and appendices.
