Tales of the German Imagination

From the Brothers Grimm to Ingeborg Bachmann

Edited by Katherine Howe, professor of American colonial literature at Cornell, this collection includes the stories of Immer Ger, a girl in a society of witch hunters, and of an Istanbul Jewish girl with a stilted in her heart, Ise Jacobs, who often annoyed her neighbors with the sudden burst of medicine-seller, an ancient performing stilt incited for fear of the witch-hunters, and others.

“Schönwerth’s tales have a compositional fierceness and energy rarely seen in stories gathered by the Brothers Grimm or Charles Perrault.”—Harold Bloom, Yale University

This new collection of German folk stories challenges preconceptions about many of the most commonly known fairytales. Many of the stories center around surprisingly emancipated female characters. “—The Guardian

“This compendious collection of carefully selected documents and published primary materi-
als, coupled with judicious and informative introductions, will help modern readers understand
how communal fear of witchcraft has fueled cycles of accusation, persecution, and purging
within communities. Explores the social, cultural, and psychological roots of witch-hunting, both in the remote past
and the present, and chronicles the most prominent witch-hunts of the Western world to show
that the roots that torment us today—Ouija boards, satanic rituals, an unspeakable fear of
what’s lurking in the woods—are rooted and revolutionize our understanding of the genre.

"Schönwerth’s legacy counts as the most significant collection in the German-speaking world in
the past century and is a testament to the enduring nature of his work. Schönwerth’s tales have
a compositional fierceness and energy rarely seen in stories gathered by
the Brothers Grimm or Charles Perrault. “—The New Yorker

"This collection of German tales, beautifully translated by Peter Wortsman, introduces us to
a world of horror and wonder that has been lost for generations. Wortsman’s translation
resets the stories to their original context, reviving the oral tradition in which fairy tales
are rooted and revolutionize our understanding of the genre. “—The Guardian
JEAN THOMPSON
The Witch: And Other Tales Re-Told
In this captivating collection, Thompson takes classic fairy tales and brings them into the near future, where they are reimagined with a touch of science fiction and concerns with issues like the environment and warfare. In “The Swineherd,” for example, the protagonist is a young woman who grows up to become the first female general in the U.S. military. In “Sleeping Beauty,” the protagonist is a boxed-in woman who reveals the beauty that is trapped within her, while in “The Emperor’s New Clothes,” the main character is a renowned anthropologist who, in his portrait of their “sublime and beautiful” country. "—Elizabeth L. Bradley, from the PENGUIN CLASSICS PAPERBACK • 272 PP. • 978-0-14-310536-7 • $14.00
