The Financial Times

The author of *So You've Been Publicly Shamed* delivers an incisive critique of modern-day shaming as a form of social control and as a war on human nature and its flaws. “—Adam Grant, Wharton School of the University of Pennsylvania

Adam Alter, a professor of psychology and marketing at NYU, tracks the rise of behavioral addiction and explains why many of today’s products are irresistible. “Brilliantly illuminates the new obsessions that are controlling our lives and offers the tools we need to rescue our businesses, our families, and our sanity. ”—Adam Grant, Wharton School of the University of Pennsylvania

In this provocative road map for the future, Kelly shows how twelve imminent technological changes—from virtual reality in the home to an on-demand economy to artificial intelligence—will revolutionize the way we buy, work, learn, and communicate. “A big-dipper ride through four centuries as first collectivists then individualists take their turn as the dominant social theory, and the result of long-term accelerating forces that will transform the way we think, work, learn, and communicate. “—Helen Fisher, Indiana University

Imbeciles
Overturning myths and reappraising heroic figures, Cohen tells the story of a great injustice: the Supreme Court's 1927 decision to champion eugenic sterilization. "—Howard Gardner, Harvard University

Individual Liberty and the Common Good
Tracing these two strands in American politics through four centuries, Woodard explores how different regions have navigated the struggle between individualism and collectivism and offers pragmatic suggestions to break political deadlock. "A big-dipper ride through four centuries as first collectivists then individualists take their turn as the dominant social theory, and the result of long-term accelerating forces that will transform the way we think, work, learn, and communicate. “—Helen Fisher, Indiana University

This Is Where You Belong
In this investigation of how we come to feel at home, journalist Warnick dives into research surrounding place, discovering what draws highly mobile Americans to new places and what makes them stay. "Thoughtful, witty, and engaging....Warnick combines personal anecdotes and thorough research to build a fascinating portrait of the people around you. “—Marc J. Dunkelman, Marron Fellow, New York University

NICHOLSON BAKER

Substitute: Going to School with a Thousand Kids

In 2014, after a brief orientation course, Baker became an on-call substitute teacher in a school district in the Pacific Northwest. He tells his story of teaching in a classroom with a thousand kids—kindergarten through twelfth grade—over the course of a single year. What Baker discovered in his classroom experience was that the great majority of students in the United States, most of whom are otherwise denied access to higher education, are capable of learning if their teachers are only willing to pitch in and help them. A story about teaching, learning, and teaching again.
