NEW TITLES for 2017/2018

RICHARD HAASS
A World in Disarray
American Foreign Policy and the Crisis of the Old Order

"Haass takes the reader galloping through the last two centuries of U.S. policy to explain the crucial turning points that have left America and the world in disarray. He provides a path to coping with and managing the challenges before us. Practical and prescriptive, this book is not a policy Talks." —Richard D. Clarke

Foreword by Tom Steyer

ADAM COHEN

Imbeciles: The Supreme Court, American Experts, and the Sterilization of Carried Back

The curve of a man’s body is not something that can be seen through the lens of a microscope. It is a complex interaction of genes and environment, of history and memory. This book tells the story of how one man, purchased a复制 of a history of a few generations back, brought to light the stories of his ancestors, from the first European settlers to the last African-American. Imbeciles: The Supreme Court, American Experts, and the Sterilization of Carried Back
